

OUR COMMITMENT TO YOU

We understand that with the rapid, ever-changing updates with regard to travel restrictions and cancelled or postponed public events, everyone is in a different place when it comes to doing what is best for you and your loved ones. The information below outlines some of the ways we are working to give you peace of mind when deciding to visit us for dinner, golf, an event or even an overnight stay.

RESORT CLEAN

As always, our servers, managers, bartenders, and kitchen staff maintain a high-level of sanitization practices. We have added to our sanitization practices by adding more frequent cleaning of public areas, removal of items from the table-tops, patio heaters for outdoor dining as long as the weather permits and hand sanitization stations around the building. You will see heightened cleaning protocols, especially in high-traffic areas as well as other high-touch surfaces throughout the building, using hospital-grade disinfectant approved by the U.S. Environmental Protection Agency to combat the spread of COVID-19. We are committed to keeping you safe and healthy while still being able to serve you in a fun environment. In addition, staff, that is able, wear face masks and frequently wash their hands and sanitize their equipment. For more information on the hotel practices, visit their website at <https://www.choicehotels.com/support/travel-alerts>

EVENT CLEAN

We are running, under current guidelines, our events department with the following changes:

- As the guest count allows (for private, invite only events) we are spacing furniture and seating to allow more social distancing
- Hand sanitizer is available at all entrances as well as at banquet space bars and any place food items are placed.

Our commitment to guest safety is priority number one. We encourage guests to private events to come, have fun but be courteous of others by following recommended guidelines as well as other's personal requests with respect to distance and safety.
